TREATY GOES TO SENATE AFTER COLLAPSE OF COMPROMISE PLAN

ADVICE IS ASKED BY MAYOR

Council Requested to Pass on Health Board Measure

NEW BODY NOW POSSIBLE

Status of Present Health Commissioner Undetermined

Mayor Burkhardt Saturday addressed a communication to city council asking its interpretation of the Griswold Act as amending the Hughes Health Bill, both passed by the State Legislature.

Council will be asked to pass on the matter at a meeting Monday night.

The amended act as interpreted by Mayor Burkhardt provides for the re-naming of the entire present Board of Health created under the Hughes health law. The amendment also makes provisions for the re-appointment of a health commissioner.

Mayor Burkhardt has sole power to re-name the board subject to confirmation by council.

He was asked if the present personnel would be affected if new appointments were to be made. The mayor would not commit himself fully in the matter of re-appointments.

"I have plans if the board is to be re-named, but am not prepared to state what I will do following the action of council," the mayor stated Saturday.

Burkhardt did not say he had any intentions of ousting any of the present members since it is believed that none of the body have intimation that the board of health must be re-established.

Dr. A. L. Jones, present health commissioner was named at a former meeting of the board of health to act as part time commissioner at a salary of $3,000 yearly.

Jones at that time was the only physician in the city qualified under terms of the Hughes act to hold office.

If Jones is not re-appointed under the terms of the Griswold act the city may be without a health commissioner.

It is not known whether Burkhardt is antagonistic to Dr. Jones.

The mayor Saturday stated that the matter of the re-establishing of the board was a matter of vital importance to the city. He stated he was anxious to have the matter fully settled that would provide for the permanency of the city board of health.

The Griswold Act makes no provision for the county health board outside of Lima.

SUIT FOR TESTING WILL FILED

Property Left by Late Dora Overly Is Involved

Suit to construe the will of the late Dora R. Overly, who died October 6, 1916, was filed in common pleas court Saturday by Ralph P. Mackenzie, trustee of the estate.

The first paragraph of the will states that she gives all the property to a trustee. The second paragraph reads that she gives and bequeaths to her son, Walter S. Overly, inlot 1687 in Jameson's addition to Lima.

The trustee, in his petition, states that he does not know whether the rentals are to go only to the son or whether the property is to be his as his own.

Another paragraph states the remainder of the estate is given to Overly's three children, 13, 12 and 8 years old, who reside with their mother, Mrs. J. J. Harris, Deshler.

Lima hospital was to receive a part of the estate for the benefit of the children's ward, in case the children are otherwise cared for. Overly, his children and the Lima hospital are all made defendants in the case.

JURY SELECTED IN NEWBERRY TRIAL

Judge Sessions Speeds Up Hearing in Election Fraud Case

GRAND RAPIDS, Mich.—Despite the influenza handicap, attorneys in the Michigan election fraud trial in progress in United States district court here, hoped to complete a jury at Saturday's session.

Four peremptory challenges were still to be exercised when court opened at 9 a. m.—two by the government and two by the defense. Forty-seven men were examined during the last three days in an effort to fill the jury box.

Two were taken seriously ill with influenza after having been accepted and several others were excused because they were not in good physical condition.

Expenses of conducting the trial, in which United States Senator Truman H. Newberry and 134 associates are accused of violating the corrupt practices act in the 1918 campaign, will run into millions, according to estimates made Saturday by government officials here.

The defense alone, including attorneys' fees and other such expenses, will be more than $500,000, according to conservative estimates.

BAYLY PLEDGES C. OF C. TO YEAR OF HARD WORK

R. B. Dunn, vice president and general manager of the Deisel company accepted the vice-presidency of the organization.

Bayly at the helm of the "bigger and better" Chamber of Commerce asked support in the coming big work planned by the organization, from all members and the board of trustees.

LIMA MEN SCORED BY MINGES

Evangelist Says City Moral Conditions in Bad State

"Tenting Toward Sodom," Evangelist W. J. Minges' sermon last night at the South Side Church of Christ revival was taken from the story of the parting of Abram and Lot, as told in the thirteenth chapter of Genesis. He retold the Bible story in the characteristic manner, giving it a modern interpretation. He pictured the eagerness of Lot and his family to enter the sinful city, of the disasters that befell them there, of the threatened destruction of Sodom by the Lord and of the rescue of Lot and his family. "Lot's wife turned back," said Mr. Minges, "because she loved the sin and vice of the city, and God salted her down right then and there." God never made a promise that he did not keep, therefore men should not neglect or disregard His warnings, said the speaker in this connection. He commented on the wonderful truth that when a man pitches his tent toward Sodom he is bound to go on and on in his career of sin.

"There is as much hell to the square inch in Lima as in any city I have been in for a long time," said the preacher, "and why is it? It is because men, in the struggle for wealth and position, many a man has forgotten his wife, his daughters, and all the nobler things of life; he has looked toward the wickedness of Sodom and his family have followed him until all are ruined." He told the story of Wordsworth's poem "Michael," adding that many a man had broken the hearts of his father and mother by pitching their tents toward Sodom. There are women who lead their children on to Sodom and ruin because they are society mad and he warned mothers to watch their children's steps lest some day they will have to go out and pick up the wrecked lives of the children.

The Deisel-Wemmer factory was represented by a delegation that filled the main section of the auditorium last night and tonight a delegation from the Chalmers factory will be present. The subject will be "The Dead Game Sport." At the close a large number of travel views of Florida will be shown.

MOTHER AND BABE SHOT TO DEATH

Insane Father Thought Person Who Fired Gun

CLEVELAND—Mrs. Martin Bullman, 28, and her five months old baby, were shot to death here Saturday. Martin Bullman, 30, is in a hospital, suffering from bullet-wounds which may prove fatal.

Police believe Bullman shot his wife and child while temporarily insane from the effects of influenza. Bullman is a telephone company lineman.

The Bullmans came from Marietta, Ohio, five years ago.

Several days ago, all three members of the family were taken ill with influenza. A friend of the family told the police he was in the house Friday night and that while Bullman appeared feverish, he was otherwise normal.

Neighbors heard several shots from the Bullman apartment and summoned the police. Officers broke into the house and found the woman and baby dead and the man unconscious. A revolver was used.

TWO MEN CHARGED WITH THEFT

Harley Diehl and Chandler Hulbert Arrested in Sugar Deal

HELD UNDER $2,000 BONDS

Bound Over to Grand Jury in Criminal Court Saturday

Harley Diehl, 32, 118 Euclid Avenue, and Chandler Hulbert, 25, 659 North Union street, arrested Friday afternoon by police on a charge of stealing $150 worth of sugar from freight cars in the D. T. & I yards here, were Saturday morning bound over to grand jury under $2,000 bond each, following a hearing in Criminal court this morning.

Both pled not guilty, waived examination and are being held at the city prison until bond is furnished.

The arrest of Diehl and Hulbert was made late Friday by Sergeant Eberle and Patrolman Crisenberry. Police had been working on clues to the theft which was reported early this week, and identified the charged men thru a check clue, secured thru one of the Lima banks which was made payable to Diehl.

Hulbert, when arrested, police say, had stored in his rooms, 659 north Union street, a one hundred pound sack of the sugar, which is alleged to have been stolen from the local yards.

Police and railroad men believe that the men stole at least 800 pounds of sugar from the tracks at various times. Five hundred pounds of the stolen sugar, according to police chief Roush, were sold to local dealers.

The arrests of Friday are the first of a number which are expected shortly, Police Chief Roush said Saturday.

Clues to the purchasers of the sugar havebeen secured by the police department, Chief Roush said Saturday. He warned that unless the sugar is returned immediately arrests will be made.

Railroad officials in numerous parts of Northwestern Ohio report that approximately $10,000 worth of sugar has been stolen from freight cars in this territory.

Findlay police have arrested four men in connection with theft of $5,000 worth of sugar from yards at that place.

ALLIES DEMAND TO BE CONTINUED

Will Not Relent on Request For German War Guilty

PARIS.—The list of German war guilty where surrender for trial by allied tribunals is demanded, will not be revised, it was stated officially Saturday.

The list containing more than 800 names, will be handed to Germany February 10, it was said. It is absolutely unchangeable. The council of embassadors Monday will decide upon the manner of remitting the note to Germany.

Recent Berlin dispatches reported the German government had dispatched a note to the allies in Paris, asking moderation in enforcement of the clause in the Versailles treaty demanding surrender of German war guilty. The German government feared, was said that surrender of the accused might precipitate internal troubles in the republic.

Prominent Germans on the list, it was learned, included:

Prince Rupprecht, of Bavaria, the Duke of Wuerremburg, Generals Von Kluck, Von Buelow, Von Mackensen, Von Der Lanken, Von Sanders, Stenger, Von Ostrowsky, Von Tesny, Von Cassel and Von Teuffel; Admiral Capelle, the brothers, Niemeyer, Majors Von Goertz, Von Buelow, Velentiner and Forstner and Lieutenants Rudiger and Weenher.

RIDDLE QUITS HIS STATE POSITION

Doesn't Like Way Legislature Handles Affairs of Office

COLUMBUS.—H. S. Riddle, member of the state board of administration Saturday asked Governor Cox to immediately appoint his successor. Riddle's term is up and he does not want re-appointment.

The policy of the legislature is refusing to make appropriations for the extension of prison industries is said to be one of the reasons back of Riddle's determination to get out of the state service. His chief battle since his incumbency has been to get as many prisoners as possible out of the idle house at the Columbus penitentiary and the Mansfield reformatory.

Friends of prison reform, it is expected, will make another effort to get the legislature to appropriate money to extend prison industries before that body adjourns.

Fight to Retain Party Strength Will be Foremost Issue Before Congress During February When Pact Will Come Before Members for Further Debates

Senator Lodge Records Statement In Annals of Senate Document to Protect Party Standing—Political Leaders Faced With Numerous Problems

WASHINGTON.—The treaty controversy now goes back to the senate as a whole as a result of collapse of the bi-partisan conferences' efforts at compromise.

Senator Walsh, Montana, gave notice today five minutes after the senate met. He followed Lodge, who put into the record a statement he made Friday, following the collapse of the bi-partisan treaty conference. Lodge also inserted a statement made by Hitchcock published Saturday morning. He asked that the two statements be printed as a senate document, in which form they would be available for general distribution thruout the country.

"I do this," said Lodge, "because my statement contains a brief report of what the committee, that has been meeting recently, tried to do with regard to reservations."

Walsh's notice will set in motion a train of events preliminary to the Hitchcock motion. Between now and February 10, a number of questions must be decided. They include:

1—Will the Democrats support Hitchcock practically as a unit when he makes his motion, or will they desert his leadership in sufficient numbers to prevent resumption of treaty debate.

2—Will the Republican mild reservationists combine with the Democrats in sufficient numbers to make Hitchcock's motion successful?

3—How will the "irreconcilable Republican vote?

4—Will Senator Lodge maintain his opposition to calling up the treaty, or will he surrender on this point in the face of the country's demand for immediate ratification?

The answers to some of these questions depend on conferences to be held between now and February 10. As things now stand, Senator Hitchcock believes, he said, that 43 or 44 of the 46 democrats will support the motion. Some, however, privately expressed the strongest opposition on the ground that to get the treaty into the senate again means blocking all legislation, of which there is a great deal demanding attention.

Hitchcock holds that a majority of the senate, that is, 49, can call up the treaty. If he gets 43 Democratic votes, he must have six Republican ones. If Lodge and those who stand with him stick to the position which they now occupy, that the treaty cannot be called up, Hitchcock must get his votes from the mild reservationists or the irreconcilable group.

Senator McNary, mild reservation leader, favors this move as do McCumber and Colt. That makes three votes, Kellogg and Lenroot, counted with this group, do not favor it, and it is believed Hale is also against it.

McNary predicted Saturday that the mild reservation group will furnish all Republican votes needed to put Hitchcock's move over.

SUGAR PRICE IS UNFAIR-M'NARY

Refiners Export Product Cheaper Than U. S. Price

HUNDRED PERCENT PROFIT

Justice Department Places Cause on Cuban Growers

WASHINGTON.—While the justice department Saturday denied that sugar profiteers were escaping unpunished, Senator McNary, of Oregon, declared that evidence of enormous profits being made in sugar—running as high as 100 per cent in some cases—had been received from many sources.

Assistant Attorney-General Figg, in charge of pushing the government's campaign to reduce living costs, announced that in the last 60 days 110 criminal cases have been started against sugar profiteers. These resulted, he said, from approximately 500 investigations of alleged profiteering cases. Figg predicted a drop in sugar prices.

McNary said Saturday he had written the department of justice about the profiteering situation. Fresh evidence, he said, "comes to my office every day."

With regard to commerce department reports issued Friday indicated that during December, sugar at 8 1-4 cents a pound was exported from the United States to foreign countries. Figg said that this was Cuban sugar bought by foreign governments. The United States government, he said, failed to buy up the Cuban crop this year, leaving American refiners to buy at any price demanded by Cuban growers.

"Cuban growers are the only ones who now are profiteering," said Figg. "They have advanced the price to American buyers to between 12 and 15 cents per pound."

Figg's reports show, he said, that there is plenty of sugar in Cuba, despite the high price. It is on these reports that he bases his prediction that sugar will drop in price.

"The justice department now has two means of preventing profiteering by American dealers," said Figg. "One of these is the license system. All wholesalers are under license as well as all retail dealers doing annually at least $100,000 worth of business. Those who profiteer are in danger of having their licenses withdrawn."

Figg's records show that seven wholesalers have suffered this penalty for profiteering, he declared.

"In addition to withdrawing licenses we can punish profiteers by beginning criminal action against them under the Lever food control act," he said. "This enables us to reach the small retail dealer not under license.

"Thru these two measures, we can control profits of refiners, wholesalers and retail dealers. But we have no power directly to fix the price of sugar."

According to Figg, the following profits are regarded as fair and consequently not "prosecutable" by the department of justice:

Refiners $2 per 100 pounds; brokers two per cent; wholesalers $1 per 100 pounds and retail dealers $2 per hundred pounds.

This group of profits adds up to 5 per 100 pounds or five cents per pound, as the total amount American refiners, wholesalers and retail dealers are taking from each pound of sugar sold. Figures given out Friday by the commerce department indicated that the profit divided between wholesalers, jobbers and retailers was approximately six cents per pound.

According to Figg, however shipping and freight charges must be added in determining a fair retail price.

THE THEATRE, VAUDEVILLE AND SCREEN

FORECAST AND COMMENT BY ESTHER WAGNER

"GOING UP"

Full of entrancing melodies, funny situations and pretty girls and presented by a cast of principals of the first class, Cohan and Harris' newest musical comedy novelty, "Going Up" which is at the Faurot today offers a particularly enjoyable entertainment.

George M. Cohan and Sam H. Harris, who never do anything by halves, have been overlavish in expenditure for this particular musical comedy, the rseult being one of the most elaborate scenic and costumed comedies that has been presented by this firm in several seasons.

As to the musical comedy itself, Otto Harbach and James Montgomery have supplied the book and lyrics and Louis A. Hirsch the music, which should be sufficient guarantees that it has a real story full of fun and melody.

The story told in "Going Up" is interesting and timely. The hero has written a book on aviation, in one chapter of which he describes a sensational night. The description is so vivid, his friends are convinced that the author himself is an aviator. A real-honest-to-goodness birdman shows up and the author's friends, proud of his prowess, arrange a race in the air, and it is the hero's efforts to keep from going aloft and what happens to him when he is finally forced to take the air, that forms a series of thrilling and unusual situations in this very unusual musical comedy.

A few of the many poular songs are "Tickle-Toe," "If You Look In her Eyes," "The Touch of a Woman's Hand," "Going Up," "I Want a Determined Boy," "Do It for Me" and "When the Curtain Falls." Last times tonight, and the last attraction but one for three weeks.

Julia Sanderson and Joseph Cawthorn in "The Canary" come to the Faurot Opera House for an engagement of one night, Monday, February. "The Canary" is good entertainment. There is an atmosphere of smartness and good taste about the production that has come to be associated with all Dillingham musical comedies. The decorations have never been surpassed in design or beauty of scenery or in beauty and design of girls. Take an idea from the French, embroider it with American jokes, color it with comedy coryphees and picturesque Joseph Urban settings, drape it with melodious tunes by Ivan Caryll and assign to it a cast headed by the graceful and charming Julia Sanderson and amusing Joseph Cawthorn, ludicrous Maude Eburne, and the amazing dancing of Doyle and Dixon, and you are pretty sure to attract a large public. Charles Dillingham has carried out this plan and as a result, "The Canary" was one of the most pronounced successes in New York all last season at the Globe Theatre. This is the last road attraction at the Faurot for three weeks.

"THE TEETH OF THE TIGER"

The Faurot has an exceptional photoplay booked for Sunday in the Paramount-Artcraft special, "The Teeth of the Tiger." Metropolitan critics say that it contains a story of tense interest and ranks high as an entertainment. It is further enhanced by a remarkably fine cast that includes David Powell, Marguerite Courtot, Myrtle Stedamn, Charles Gerard, Templar Saxe, Riley Hatch and Frederick Burton. Its stay at the Faurot is limited to Sunday only.

REGENT — Patrons of the Regent will have final opportunity today to witness Norma Talmadge's latest contribution to the screen, "A Daughter of Two Worlds." The name of Norma Talmadge is a big factor in the photoplay world today. Linked with a famous story masterpiece it has proven a record-breaker from point of attendance and has proven a delight to movie lovers who attended its showing. If you haven't seen her better do so today — your last chance.

Mabel Normand as "Pinto," feature attraction at the Regent Sunday, Monday and Tuesday, finds that New York is not a "Ranch" as she'd expected, and finds a little difficulty in locating "Pop" Audry's home, whither she had gone at the behest of all the disgruntled cowboys on the western ranch. These cowboys she had driven to desperation thru her exploits on her pony and they

were only too happy to see her go.

Now most people who go to the movies and a great many who go now and then know Mabel Normand as the fearless, hoydenish daredevil-ess of the screen, but with all their previous knowledge of the ability of this "peeress of sensation" they are to find that such knowledge is but elemental after having witnessed Mabel as "Pinto," for they are to receive the biggest "jolt" of their young lives when they follow her manoeuvres on the screen in this, her new Goldwyn.

D. W. Griffith is concededly the foremost producer of motion pictures. His every new photoplay is anticipated with breathless expectation by the hordes of amusement goers thruout the length and breadth of the country. His is the genius that transplants to the shadow screen the innate tragedies, heartbeats, tears, laughter and song of the people who inhabit his brain. His newest creation, "The Greatest Question," is to be shown next Wednesday, Thursday, Friday and Saturday at the Regent.

It is much easier to be a prima donna, a tragedienne or a Sophie Tucker than to be a Sennett star. At least that is the opinion of pretty Marie Prevost, who long since attained a stellar position with the famous Sennett bathing girls. Marie asks anyone who disagrees with her to imagine some of the greatest stage luminaries and singers garbed in "one-piece" suits emerging with credit from a bath in the spot light. We agree with Marie on that one point, the mere thought of such an event is terrible. Here is Mr. Sennett's idea of what a bathing girl must be:

"A Mack Sennett star must be able to slip herself into the limitations of the 'one-piece' and be able to look the whole world in the face with serene, if not impudent immunity from reproach. She must be able to accomplish this nautical, and perhaps naughty effectiveness with symphonic results of blended contour and harmony. And she must also qualify for the conventions of skirts, therein sometimes, to act with emotional sincerity or comedy results, according to the exactions of the role assigned to her. She must by all means add loveliness of countenance and vivacity of manner to gifts of a pleasing personality and suggest in her deportment the decorum of personal propriety."

Some order! And to think Marie is all of that.

MATT MOORE IS BUSY

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and a FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "*A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death.*" The taste and smell of medicines containing opium are disguised, and sold under the name of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. SECOND DECISION IN MAYS CASE

NEW YORK — Injunction granted by the supreme court, restraining President Ban Johnson of the American League from interfering with Pitcher Carl Mays of the Yankees, was affirmed Friday by the appellate division of the supreme court. It was a decision on the appeal of Johnson, who sought to have set aside the decision of Justice Wagner several months ago, who granted the original injunction preventing Johnson from suspending the former Boston pitcher.

The case was the outgrowth of an alleged rebellious act of Mays last summer. While pitching for the Boston Red Sox, he quit the club and after remaining away for several weeks, was sold to the Yankees for a sum said to have been around $50,000. After he had reported to the New York club, he was suspended indefinitely by the league president who claimed he was forced to this disciplinary measure because the Boston dlub failed to punish Mays for his act. The Yankees applied for an injunction which was granted by Justice Wagner and Mays finished the season with the Yankees.

Johnson appealed and the case was heard in the appellate division. The decision Friday affirmed the temporary injunction with leave to the defendant to move to vacate the injunction if the Yankees do not promptly move the case for trial.

SOUTH LOSES CLOSE GAME

South Hi lost to Fostoria Friday evening by a score of 19 to 17. It was the closest game ever played on the South court. The score, by no means, shows how evenly the two teams played during the game.

At no time was there a difference of more than two points in the score. Coach Hendershot's men played well-nigh faultless basketball. South had the ball most of the time and the Fostorians were outplayed in the first half.

South led in the first half with a score of 8 to 6.

Fostoria did not play up to its usual standing and the teamwork of South was superior to the visitors.

The brilliant playing of Hughes was the feature of the struggle. This was his first game. Playing guard, he successfully "brokeup" numerous possible plays of the champion visiting cagers.

Totaled up, it was a good game for South and the loss of victory can only be assigned to the jinx of defeat that has hovered about the team all season.

Considering the past winning record of Fostoria, South did well in holding it as she did. The line-up was as follows:

South		Fostoria
McClain	C	Gorrel
Hughes	R.G.	Snoffer
Blank	L.G.	Fox
Brookhart	R.F.	Worey
Roeder	L.F.	Hatchet

Points—Roeder 8, McClain 4, Blank 5.

CAL DELANEY WINS.

The letter was found on the Colonel's body after he had shot himself through the heart.

Easy to Make This Pine Cough Remedy

Thousands of families swear by its prompt results. Inexpensive, and saves about $2.

You know that pine is used in nearly all prescriptions and remedies for coughs. The reason is that pine contains several peculiar elements that have a remarkable effect in soothing and healing the membranes of the throat and chest. Pine is famous for this purpose.

Pine cough syrups are combinations of pine and syrup. The "syrup" part is usually plain sugar syrup.

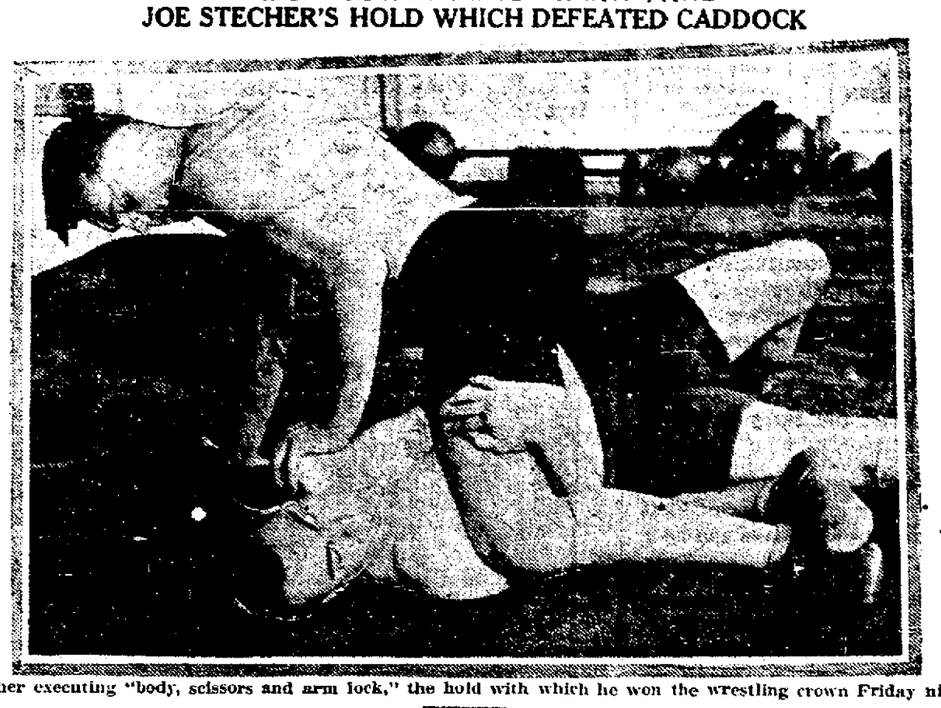

To make the best pine cough remedy that money can buy, put 2½ ounces of Pinex in a pint bottle, and fill up with home-made sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, you make a full pint—more than you can buy ready-made for three times the money. It is pure, good and very pleasant—children take it eagerly.

You can feel this take hold of a cough or cold in a way that means business. The cough may be dry, hoarse and tight, or may be persistently loose from the formation of phlegm. The cause is the same—inflamed membranes—and this Pinex and Syrup combination will stop it—usually in 24 hours or less. Splendid, too, for bronchial asthma, hoarseness, or any ordinary throat ailment.

Pinex is a highly concentrated compound of genuine Norway pine extract, and is famous the world over for its prompt effect upon coughs.

Beware of substitutes. Ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

JOE STECHER'S HOLD WHICH DEFEATED CADDOCK

Stecher executing "body, scissors and arm lock," the hold with which he won the wrestling crown Friday night

It was after two hours, five minutes and three seconds of strenuous work on the mat that Joe Stecher, the Nebraska wrestler secured the famous "body, scissors and arm lock", depicted above, and brought Earl Caddock's shoulders to the mat, ending the greatest battle staged in New York for many years.

Stecher in his training previous to the bout continually executed the above hold and inside information from his camp was that the trick would enable him to win the wrestling crown.

Time and time during the match Stecher strove to secure the hold on Caddock but was unable to carry out his designs until after two hours of grappling.

JACK CANNOT ENTER POST

Jack Dempsey, world's heavyweight champion, is not and cannot be a member of the American Legion, as announced by a Milwaukee post, according to Hyde Park post, No. 34, which yesterday denounced the action of the Cream City post in enrolling Dempsey as an honorary commandant and making him a life member of the post.

F. B. Flannery, commander of the Hyde Park post takes a shot at the Gordon Barber post of Milwaukee in terms that the American Legion constitution makes it impossible to grant a membership to an outsider and cites the rule to prove his contention.

Takes Shot at Milwaukee

Hyde Park post, No. 34, through Mr. Flannery, states that it is not particularly interested in the Dempsey case but calls to attention the fact that his divorced wife says he is a slacker. Mr. Flannery has this to say:

"Prominence is given in the newspapers to a statement that a Milwaukee post has 'cleared' Jack Dempsey of the slacker charges made against him. Milwaukee also vindicated (?) Victor-Berger by returning him to congress after he had been expelled. That seems to be one of the best things they do up there.

STECHER WINS MATT TITLE

NEW YORK — After two hours of wrestling Joe Stecher of Nebraska won the world's heavyweight champion by defeating Earl Craddock of Iowa with a body scissors and arm lock. The match was held at Madison Square garden.

Caddock put up a wonderful battle conceeding twenty pounds in weight to his opponent and it was not until five minutes at the end that Stecher gained a decided advantage.

The official time for the match was two hours five minutes and three seconds.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. For 17 years he used these tablets (a vegetable compound mixed with olive oil) in his private practice with great success.

They do all the good that calomel does but have no bad after effects. No pains, no griping, no injury to the gums or danger from acid foods—yet they stimulate the liver and bowels. Take Dr. Edwards' Olive Tablets when you feel "logy" and "heavy." Note how they clear clouded brain and perk up the spirits. 10c and 30c a box

WHY MICHIGAN WAS BEATEN—BY YOST

DETROIT, Mich. — Coach Fielding H. Yost told Michigan alumni of Detroit that he would rather crawl on his hands and knees to the Ohio river than go through such a football season as he had last fall. He said, in part:

"You can't make 12-second men run in 10. A man who has only 10 cents can't give a dollar. The parade is moving fast and you have to have the right kind of wagon to keep up.

"Send me the two best high school athletes developed annually in Detroit and the other colleges can have the rest. Give me a John Garrels or a Carl Johnson and they can have the whole state of Washington.

"The team we had last fall did all it could and I know it was damned little. I watched other teams passing and shooting and whirling against them and sometimes I couldn't even see the Michigan team."

WILDE MATCHED WITH MASON

TOLEDO.—Ad Thatcher the man who had the permit for the Jess Willard-Jack Dempsey fight here last July 4, today secured Jimmy Wilde's signature to an agreement to box 12 rounds with Frankie Mason for the flyweight championship of the world. The match is to be staged in Toledo the latter part of next month.

Thacher went to Milwaukee to see the Wilde-Mike Ertle bout and was so impressed with the Britisher's showing that he offered him a guarantee of $10,000 for a match here. Wilde accepted. The match will be staged either in the Coliseum or the Terminal Auditorium.

Wilde has engaged in three fights since coming to America. He fought Jack Sharkey th Wilwaukee, then took on "Babe" Asher at St. Louis. Last night he knocked out Mike Ertle in the third round at Milwaukee. Ertle looked like a novice in the hands of Wilde and did not land one hard blow.

ENGLISH SEE CARPENTIER

NEW YORK — Tears that welled up in some of the sport eyes when Georges Carpentier hurled a defi at Jack Dmpesey, are now drying up.

When the French idol looked over the prostrate form of Joe Beckett, dreaming from the effects of four cannon punches, and said "Dempsey next," the wise ones measured him for a coffin. But now they are wondering what size hat he wears, having developed something akin to a hunch that a new crown might have to be ordered.

Since they hope toppled over in less than a round, English fans can't see anyone but Carpentier in the coming fight.

Charles B. Cochrane, the London promoter, voiced the sentiment of the British when he said recently:

"Carpentier is conceded a slender chance by Americans, but I have seen him in action, and I am inclined to believe he needs no sympathy."

Fred Fulton and Joe Jeanette two American heavies recently declared that the Frenchman possessed a right dangerous for any man and was skillful enough to take care of himself against the best of hitters.

Jack McAuliffe, the retired undefeated lightweight champion is another American who believes the fans should not rush for flowers to toss in the ring as sympathy tokens for the poor Frenchman.

"Carpentier will surprise everybody. He's a perfect fighting machine, clever on the defense and a dangerous hitter with both hands. The longer the fight goes, the bigger chance he will have to win."

There is much speculation as to where Sherry Magee will land for next season. The opinion prevails among many critics that the veteran will be picked up by a major league club. He drew an unconditional release from the Reds a few days ago.

ASTHMA WOULDN'T LET HIM LIE DOWN

Hasn't had a sign of trouble now for over 9 months.

"A year ago I had asthma so bad my friends thought I would never get over it. I had doctored for a long time without results. I had not been in bed for 3 weeks, could not even sit up straight in a chair. Then I heard of Milks Emulsion and started using it. It was only two days later that I could go to bed and sleep soundly. After taking eight bottles ($1 worth) I found myself completely cured. It is over 9 months now since I quit taking Milks Emulsion and I haven't had a symptom of asthma since."—George W. Baker, R. F. D. 1, Latrobe, Pa.

Why shouldn't Milks Emulsion help you? It has worked wonders for others. It costs nothing to try.

Milks Emulsion is a pleasant nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to those whom sickness has weakened and is a powerful aid in resisting and repairing effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results your money will be promptly refunded. Price 60c and $1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

PREVENTION IS BEST CURE FOR INFLUENZA SAY PUBLIC AUTHORITIES

Every Possible Effort Is Being Made In Affected Localities To Stop Further Spread Of Disease.

OUNCE OF PREVENTION WORTH POUND OF CURE

Persons Who Catch Colds Easily and Who Are In Run-Down Condition In Greatest Danger.

Influenza continues to spread; and the disease is now prevalent over many sections of the country.

It has baffled the medical skill to an unusual extent, and although it has been been held in check in most localities it has gotten beyond control in others. The germ has eluded bacteriologists, and medical men now agree that the best cure is prevention.

The surest prevention is to build up the bodily powers of resistance, and to get the system into the best physical condition possible. It is now universally agreed that it is possible to perfect the powers of resistance of the human system so that it can throw off almost any infection, not excepting Influenza.

It has been observed that persons who are weak and run-down are more susceptible to the disease than persons who are in robust health, and if you are in a generally run-down condition and below normal weight this warning should be heeded promptly. If you are in this condition nothing on earth will build you up and strengthen you like Tanlac, which contains the most powerful tonic properties known to science. As a reconstructive tonic and system builder it is without an equal and contains the very elements needed by the system to give you fighting strength to ward off disease germs. This is a statement of fact and is supported by the recognized authorities and reference works including the U. S. Dispensatory, the Encyclopedia Britanica, and also by standard text books used in the schools of medicine. This statement is further proven by the fact that millions of persons who have actually taken Tanlac have testified to its extraordinary merit as a medicine and by the fact Tanlac is today having the largest sale of any tonic on the American market.

Tanlac is also an ideal strengthening tonic for persons who are suffering from the after-effects of colds, influenza, ordinary Grippe, and bronchial troubles, and hundreds of thousands are using it daily with most gratifying results.

In connection with the Tanlac treatment it is very important to keep the bowels open by taking Tanlac Laxative Tablets, samples of which are enclosed with every bottle of Tanlac.

Tanlac is sold in Lima at Hunter's Drug Stores and the leading druggists in every town.

Goldsmith ne'er shunned the flagon
And how Lord Byron used to tank
With a poetic jag on.

What rhyme can you expect from me
A bard of humble station?
Like those old lads I cannot
Without their inspiration.

And as, alack, Sahara's spell,
Which struck these poets never
Has 'compassed me, I may as well
Swear off the verse forever.

LEST WE FORGET

We know why people shake their heads,
And loudly yell: "Deport the Reds!"
And ev'ryone is sad and sick,
Whene'er you mention Bolshevik!

Deport the Reds without delay,
Send them to Trotzy's land today!
But how can we indulge in cheers,
When we're still with us profiteers?

FATAL

The Bolshevik
Lay dying,
For him there
Was no hope.

Some enemy
Had sent him
A cake of
Toilet soap.

OLD IRVING DAVIS SAYS:

Those who are well-to-do, are generally hard-to-do.

Many employes, who have good employers, and really can't do so much for him, are foolish enough [illegible]

Don't become a contractor, if our specialty is Beats!

Fashion put a taboo upon large [illegible], because they emphasized the [illegible] of one's cranium!

Don't spend money to [illegible] specially if it's your own!

Evidently Samuel Taylor Coleridge had January 16 in mind when he wrote the famous passage in "The Ancient Mariner": "Water, water, everywhere, and not a drop to drink!"

That Element

"IT IS THAT element in every country—" She was passing on the street, her tone was grave and disapproving and that was all heard. But the hearer felt that she was wrong. Is one human being as different from another as are an atom of oxygen and an atom of lead? And do we find our fellowmen distributed thru the earth in mines or strata with the pure gold in the churches and the lesser metals somewhere else? Are our chambers of commerce filled with one element, our sweat shops with a second and our jails with a third?

HAVE THE MEMBERS of these different groups come together by a natural affinity, like so many birds of a feather and left society no bigger task than to regulate their relatives and keep the baser sort in subjection?

PLATO SEEMS TO HAVE thought so. He supposed that every man had three souls, one in the abdomen, one in the chest, and one in the head; and he said that a state was much the same, made up of gluttonous or sensual workers, chesty soldiers and high-brow rulers who could use the soldiers as an individual man uses his courage to keep the blind, unruly element in place. But Plato was no democrat. Like others of his time he took slavery for granted, and he and his friends had suffered from the mob.

PLATO WAS WRONG, and the lady quoted was wrong. Men and women are born with various different degrees of intelligence, of vitality and courage, of sociability and human sympathy. But the "elements" that we find or seem to find are largely of our own creation.

THE SOCIETY THAT MAKES a sweat shop makes the sweat shop spirit; the conditions that drive men to drink make the saloon atmosphere and the saloon element, just as common prosperity does much to make the respectable element. But the men in all these "elements" are much the same at bottom. Put yourself in the other man's place, and you will be very much like him.

DO NOT LOOK for "elements" amongst your fellowmen; do not seek for control of one element by another; but see the common humanity of us all, and join with the rest in trying to give the best in every man a chance to realize itself in something better than drink or gambling or mere money-making or blind social discontent.

A Tax On Titles

AMERICAN INVESTMENTS IN foreign titles engage the interest of the United States from time to time, says the Chicago Tribune. William K. Vanderbilt, Sr., of New York has presented his grandson, the Marquis of Blandford, with a house in London. The marquis is the son of the Duchess of Marlborough, who was Consuelo Vanderbilt. Mr. Vanderbilt also has presented the Hon. Alexandra Mary Cadogan, the daughter of Earl Cadogan, with a pearl necklace. The marquis will be married soon to Miss Cadogan.

THESE ARE NOT very considerable investments for Mr. Vanderbilt, but his American properties will make it possible for him to do more later on. American interest in the acquisition of nobility by solvent citizens of the United States is always responsive. When our citizens enhance their social stature there is something like a national glow. We are a warm-hearted people and like to see people getting along in the world.

SOME DAY A WISE king will be inspired by Edward III, and will establish an order of the American dollar, a humble but forceful instrumentality of great service which deserves recognition. He will regret that the best motto was taken by Edward III.: "Honi soit qui mal y pense." We might then cease to be ashamed of our dollars, and all be enobled in the possession of them.

WHILE AMERICANS ARE taking a kindly interest in titles we suggest that it would be good for their interest to penetrate into the ways and means committee of congress. If the committee were interested, it might decree that every time a dollar from American resources went into a foreign title two dollars from the same source should go into the United States treasury.

New Health Building Candy for Young and Old

Sensational Success in New York Now Obtainable in this City

From present signs it looks as though Partola, the new combination of laxative and antiseptic medicines in the form of mint candies, would enjoy the same popularity here as it does in the east. Local druggists predict a heavy demand and base their opinions on the remarkable advantages of this delicious confection.

When consulted, a representative said that Partola was a scientific improvement over the old-fashioned laxatives in that it not only does everything that the best laxatives can do, but it is an internal antiseptic as well. It tends to overcome the intestinal germs and poisons which originate in the digestive tract, thus making the organs antiseptic and giving invaluable protection against scores of diseases.

Despite the fact that Partola is such an efficient safeguard for the health of young and old, it has no taste or odor of medicine whatever. It is a pleasant candy lozenge—as delicious as bon-bons. As it comes in 25c, 50c and $1.00 boxes at all drugstores it is no more expensive than ordinary laxatives and, of course, is much more valuable on account of its double duty (laxative and internal antiseptic) and its delicious taste.

Today's Health Hints

By WILLIAM BRADY, M. D.

TIME AND ANTISEPTICS

Whoever uses or advocates the use of antiseptics obviously believes that germs cause disease and that drugs are helpful in overcoming disease. This is gratifying, especially when one finds the official textbooks of non-drug schools of healing advocating antiseptics. Whoever believes in aseptic precautions — surgical cleanliness, sterile or germ-free environment and materials — in the operating-room, in the lying-in chamber, in the household where contagious disease exists, obviously believes that germs cause disease. Whoever employs an antiseptic tooth paste or gargle or mouthwash, or endeavors to apply antiseptics to a wound, believes that germs cause diseases. And they believe this, although they have never seen a germ.

Antiseptics discourage germ multiplication but do not necessarily destroy germs.

How do germs cause disease? By merely being present on the surface of a mucous membrane or the skin or a wound, where an antiseptic or medicinal solution may reach them and perhaps wash them away? No. There is no disease, no harm done, so long as the germs remain on the surface where the antiseptic or medicinal application can reach them. Harm is done, disease or inflammation is produced, infection has occurred only when the germs invade the structure of the tissue; and then, alas, no antiseptic solution can reach them.

Well, then, what's the use of using antiseptics? There are very good reasons, I think, for using safe antiseptics intelligently — and that is another story. There are still better reasons, I believe, for not using strong antiseptics indiscriminately. Your antiseptic may do more harm than good.

When you do use an antiseptic, your purpose is to discourage the multiplication of germs reached by the antiseptic. That purpose is not met by a momentary application of the antiseptic; it requires a few minutes for the antiseptic solution to seriously discourage germ multiplication. Hence it is wasteful and futile to rinse the mouth an instant and then eject the antiseptic and carefully rinse it away with water —if you are using some antiseptic, which I do not advise as a habit, let me say. It is silly and futile to use any antiseptic incorporated in soap to be applied to the skin, unless you mean to leave the soap on the skin for many minutes. Remember, good antiseptics do not kill germs. They diminish multiplication of germs if applied long enough — five minutes to half an hour, at least. Having no antiseptics I am naturally not prejudiced. If I were the patient I should as soon have my surgeon scrub his hands thoroughly with plain soap and water as to dip them in a solution of corrosive sublimate (bi-chloride of mercury) — provided he scrubs conscientiously.

ABE MARTIN

Ther's blamed few things that looks as shiftless as a man settin' behind a stove. "I drunk my first quart o' dandylion wine, yesterday, but I had no kick comin'," said Tipton Bud Cday.

WHAT THE STARS PREDICT

This day is not particularly important.

The stars indicate a movement of troops in the early spring.

Honors for military men as compensation for their war service abroad, is predicted.

Again the stars warn of prevalent illness which will crowd the hospitals.

The death of a famous scientist and many passings of royal personages in Europe will come as a shock.

Persons whose birthday this is will have an uneventful year.

Children born on this day will be active and gifted.

Short Shavings

"So you really think your memory is improving under treatment. You remember things now, then?"

"Well, not exactly, but I have progressed so far that I can frequently remember that I have forgotten something, if I could only remember what it is."

The village photographer was losing patience with his woman patron. "Just a little smile, please," he said, dweling somewhat on the last word. "A smile adds so much to the artistic effect."

The woman shook her head.

"Of course, if you'd rather," commenced the artist.

"I would not," came from the direction of the headrest. "Our one layin' 'en died this morning, bacon's gone up tuppence a pound, mother's had a couple o' fits, my boy George has just broken a plate-glass window, and my husband is in a military hospital with four or five pounds o' lead inside him. If you think I'm goin' to grin like a Cheshire cat when I'm up against that shower o' blessings you're scratchin' the wrong pig. You git on with it, natural, mister.

"Do you think eggs will be worth ten cents a piece this winter?"

"I haven't taken up that side of the question," replied Farmer Cornlossel. "I've been studyin' a ten-cent piece an' wonderin' whether it's worth an egg."

VAUDEVILLE

At the Orpheum theatre Sunday only, in addition to the second big six-act bill of the series of four of the most wonderful vaudeville shows ever brought to Lima, there will be presented five reels of the finest feature first run photoplays—Bess Is Love, in "A Fighting Colleen," a story of laughter and tears, centered about a little urchin of the streets and a bitter political campaign that affects the true hearts and noble souls of Cobblestone Alley.

There will be a complete change of vaudeville program at the Monday matinee, when the first of the two great Grand Leap Year Jubilee Shows will be offered, honoring the ladies and celebrating the advent of the first February with twenty-nine days, in four years.

The vaudeville offering to be seen the last times at the Orpheum Sunday is headlined by the Five American Girls, maids of magic melodies, whose piquant lovliness will take your very breath away.

Frear, Baggott and Frear are a simp and two big league baseball players who meet "At the Grandstand" in a tangle of irresistible laughter.

Harper and Blanks present the most humorous blackface comicality of the season. Jerge and Hamilton are seen "On the Pier," dispensing a frothy bit of nonsense that sizzles and bubbles over with pep, Jazz and ginger.

Ruhle and Rullowa offer a magnificently artistic dance divertissement.

Hazel Leona is one of the most bewitching bits of feminity in vaudeville. She sings some of the snappiest songs ever heard in Lima.

The Grand Leap Year Jubilee Show for the first half of next week is headlined by Coley and Jaxon, "The Minstrel and the Maid." The Jubilee Show starting Thursday matinee, for the last half of this week and next Sunday is headlined by Everett's Monkey Hippodrome, world's greatest simian attraction.

H. C. L. NO BAR TO RURAL MARRIAGES

The high cost of living, the bugbear of all couples who are the least matrimonially-inclined—does not affect one occupation when the marriage question present itself. That one is the farmer.

Statistics show that more farmers take out licenses to wed in the probate court of Allen county than men of other occupations. Especially is this true now and of the spring of the year, that they may get settled and to carry out plans for the harvest and year's work.

The records in the probate court show that in January of 1919 40 licenses were granted. Of that number, ten were issued to farmers. In February 41 licenses were issued and of that number, nine were farmers.

Forty-three couples were granted licenses to wed in March and of that number, nine were farmers. During the big rush to the marriage altar last month, of the 81 licenses issued 16 were to farmers.

The records of January show that nine licenses were already been secured by farmers. No other occupation can come up to that of the farmer in helping Dan Cupid out in his wiles.

Reasons are explained in various ways. In the case of the farmer, the woman on the farm is most necessary for his success and the accomplishment of farm business. Without her, the farm fails to operate.

A man may successfully carry on any other business or occupation or profession of his own accord, but not so, when it comes to operating a farm. The fine hand and keen sense of the woman is a necessary asset.

On Allen county farms today, no matter whether she be a farm woman of many years' standing or whether she is just one of the brides who was a principal in a January wedding, she is prepared to do not only her work in the house, but to care for and raise probably several hundred chickens and other varities of poultry, in many cases she must do the milking or a part of it, she is expected to attend to a little garden, set off to grow her special variety of vegetables and garden flowers and to cultivate and care for it.

Then it is not infrequently, she must feed the hogs. When the fall season comes on, she must gather in the apples and many of the crops. While the men of the house are busy with matters more important, as plowing for wheat, or cutting the corn, she must do these other tasks.

It is not an uncommon thing to see women help out in the fields, plowing, or riding one of the machines and driven tha horse to assist the husband and father with his spring work. While with the advent of machinery for labor-saving in every line of farm work, few women there are now who pitch hay, or who cut corn, or even husk it.

She knows in the end it will mean only the best things for her to cook and eat and that while others are complaining about the high cost of those things which substantially go to make life worth while, her meat house will be filled with the best cuts, her egg basket will be overflowing, a small room in the upstairs of the farm home will be filled with sacks of flour, groaning under own weight and her cows will give of the riches milk.

High cost of living! She doesn't know it.

With the automobile when the family wants to go to the circus or take a day off or pass a quite Sunday with friends, either in the city or country, with her rural telephone and the mail delivered to her door, she doesn't have the hard time the city woman pictures for her.

For very few farmers there are nowadays who have not electric lighted houses, same as the city man, who have not the plumbing system and bath and toilet, same as the man in the city does and the hundreds of other conveniences which the city resident produly calls his own.

Statistics show that very few divorces are asked for or granted among farmers and their wives. True, once in a while, one becomes dissatisfied and seeks redress thru the medium of the courts. But they are very rare.

The country life, the beautiful outdoors and all growing nature imbue the country couple with such a love that there is no place for dissatisfaction within the confines of their homes. They usually rear large families of children, which in their old age rise up and call them blessed.

Hon. William Klinger, judge of the court of common pleas in Allen county, at the close of a contested divorce case recently, in which a Lima young woman had married an Allen county farmer, afterward becoming dissatisfied with her station in life, summed up the situation to her, as follows:

"My advice to you is to go back to the farm. Your husband can never become the success working in some factory in the city that he can on the big farm which he owns. While at times the dirt of the chickens, the filth of the pigs, the mud of the country, may all prove repulsive to you, yet I say to you, as one who knows, that when you have honestly tried it out, you will find it is the most beautiful life any one can wish.

"In your old days you will have an income from which to live and your husband will still not be working for a mere pittance from week to week to help his family just eke out an existence."

The farmer alone, when he thinks of matrimony, thinks not of the high cost of living, for it means a partnership in which he will be able to even beat it, with the help of a good woman and the yield of dollars which the earth will bring him.

With him, "his corn and cattle is his only care, his supreme delight, the country fair."

WOOD BOOM MAY FAIL IN WEST

Manager Withdraws From Oklahoma Fight.

OKLAHOMA CITY, Okla. — The Wood presidential boom in this state threatened to collapse Friday, following the withdrawal of J. J. McGraw, Republican national committeeman, and Wood manager here from the fight for re-election.

McGraw apparently decided on the withdrawal as a result of a series of defeats at the hands of J. L. Hamons forces in district councils.

The possibility that Hamon will re-enter the Wood fold was regarded as remote. Hamon contends he was "double-crossed" by Wood managers when McGraw was made vice-chairman.

MARSHALL FIELD REVIEW

Marshall Field & Company in their weekly review of the dry goods trade say:

Current wholesale distribution of dry goods has been very large, and much ahead of the corresponding week of last year.

Orders from salesmen on the road are of greater volume, both for immediate and future delivery.

Customers were in the house in larger numbers, all reporting active retail business.

Collections are very satisfactory.

TEAM WORK

A man may know the cost of a dollar, by the work it takes to earn one, but his wife can make that dollar buy more; she knows its value.

Each has a part; one to earn and the other to spend. It takes both to make a home.

The margin between income and expense which the wife knows so well, is that which she saves.

When the good wife finds a safe place for money like The Allen County Savings & Loan Company she adds to the sum from time to time.

And 5% interest helps make it grow.

ESCAPED AN OPERATION

By Taking Lydia E. Pinkham's Vegetable Compound. Many Such Cases.

Cairo, Ill.—"Sometime ago I got so bad with female trouble that I thought I would have to be operated on. I had a bad displacement. My right side would pain me and I was so nervous I could not hold a glass of water. Many times I would have to stop my work and sit down or I would fall on the floor in a faint. I consulted several doctors and every one told me the same but I kept fighting to keep from having the operation. I had read so many times of Lydia E. Pinkham's Vegetable Compound and it helped my sister so I began taking it. I have never felt better than I have since then and I keep house and am able to do all my work. The Vegetable Compound is certainly one grand medicine." —Mrs J. R. MATTHEWS, 3311 Sycamore Street, Cairo, Ill.

Of course there are many serious cases that only a surgical operation will relieve. We freely acknowledge this, but the above letter, and many others like it, amply prove that many operations are recommended when medicine in many cases is all that is needed.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass.
